ONE OF OUR
TOP
CANDIDATES

SUPPLY CHAIN MANAGER (REF: NK/00559) (R1.1 m p.a.)

This candidate (white male) is a strong Supply Chain Manager who gained his extensive experience through his involvement in different departments and processes throughout his career. Some of his achievements include: Implementation of two shift operations in production to reduce overtime and allow production to turn production batches over faster; Factory improvements where raw materials and finished goods warehouses were arranged according to the 5S of lean manufacturing; Implementation of better operating methods within production – reducing the chances of customer complaints; Reducing consolidated stock losses from R4 million to under R300 thousand. Strong candidate looking for a career change

LEGAL ADVISOR / ADMITTED ATTORNEY (REF: AH/00560) (Desired Remuneration R900k - R1m p.a.)

This candidate (African Lady) is an experienced Legal Advisor who has extensive experience in dealing with contract management including but not limited to Construction, Facilities Management and Property Law, Intellectual Property Portfolio's as well as intercompany legalities for the private as well as government sector. She is a very strong candidate and highly recommended. Current contract is ending 30th of April 2019 and she is seeking a permanent or contract position

ADMINISTRATIVE MANAGER (REF: NK/00561) (R700 p.a.)

This candidate (white male) holds an honours degree in Strategic Management and is a highly ambitious and self-motivated individual who has a passion for people and strategy. He has experience in the Finance Investment/Administrative industry as well as the steel industry, where he is currently the team leader and manager respectively. Strong candidate looking for a career change

FACILITIES MANAGER (REF: NK/00562) (R600 p.a.)

This candidate (black male) is a highly skilled and goal-oriented Facilities, Maintenance and Operations Manager with ten years' experience in assisting companies to maximize efficiency and achieve sustainable growth both Civil and Mechanical. With all his years in maintenance management and operations, he has demonstrated the ability to deliver on productivity goals, increase efficiency (PPM) and maintain quality management systems. Moreover, his on the job experience has afforded him a well-rounded skill set, including first rate time management, communication skills and Human Resources. He excels in facilities and operations principles (ISO 41001), vendor management and SLA management (ISO 9001), project property management skills, planned and preventative maintenance scheduling in all trades civil and mechanical using SAP, BMS and MDA, Health and Safety, Quality management system (ISO 9001:2015), Asset and utility management (ISO 55001), as well as property law and contractual law. Strong candidate looking for growth opportunity

INDUSTRIAL ENGINEER (REF: NK/00563) (R600 p.a.)

This candidate (black female) is a high caliber Industrial Engineer who possess more the five years of experience in the process engineering field and two years in the warehousing field. Her responsibilities as a Process Engineer include process optimization, visual management system, statistical process control from different plants and departments using troubleshooting tools like quick Kaizen, standard Kaizen, enhanced work order, value added Kaizen, and human error

root cause analysis. She also played an integral part in the successful completion of reducing a plasterboard weight project that saved the company R5 million, reducing the truck turnaround time for the warehouse department. Strong candidate looking for professional growth

LOGISTICS CONTROLLER - GAUTENG (REF: VR/00564)

(Desired Remuneration - R 20 - R 25k p.m.)

This young EE female candidate is looking for a Logistics Controller position in Johannesburg. She holds a National Diploma in Logistics and has two subjects left to complete her BTech degree in Logistics and has also completed a Supply Chain Management Course. Her most recent role was that of Purchasing Specialist and prior to that, Logistics Specialist. She is very knowledgeable on inventory, operations and logistics functions, and has solid import experience, and is naturally improvement focused and a self-starter adept at resolving problems with a strong belief in building relationships with customers and warehousing staff. Confident, well spoken, positive, outgoing, presentable, organised, systematic and very competent in the position of Logistics Controller
